growth and we have 17,437 employees here in the state. We are a major, major user of office space in the City of Lincoln and throughout the state. And I'm just wondering who is watching the hen house here in that we have a lot of chickens and I'm just wondering who is watching the hen house. Who is taking care of all of these employees and their space requirements? I think there needs to be some criteria set up, and with that in mind, I will pull this amendment. I certainly do trust the Appropriations Committee. I hope that they have the tools and the information that they need to take a look at the requirements, both spacewise and personnelwise, but we must stop the growth of Nebraska's government, both in space and in personnel. And so I would pull this amendment at this time and thank you for your time and the opportunity to bring this forward.
